Customer Reviews

When I first heard this Piano sonata the first thing that popped in my head was that I had to learn this genius piece of music, The second movement actually inspired me to re-learn the piano. The fingering suggestions are great, and everything is there so if you are looking for a cheap copy of this piano sonata, this is it.

I heard this sonata played by a wonderful pianist from Korea, so I had to have it. I won't be able to play it as well as she but I'm working on it. It's easy to read and comes with instructions as to how to play the piece.

Edition by one of the best Beethoven performers ever, this functions as a reliable/scholarly piece of urtext, while also showing Schnabel's genius/innovative fingering ideas.
